Live Your Best Life

Yugo Plazaola Activity Program

At Yugo, our mission is to care for the planet, support our students in their academic journey, and enhance their personal growth. To achieve this, we provide safe spaces where activities based on our three pillars can be carried out.

Sustainability

Education

Personal development

YugoEco is about being at the forefront of innovation in student living spaces and setting a new standard that, hopefully, will inspire others to do the same.

Yugo Eco represents our total commitment to creating a better world for everyone and a sustainable environment for our students and teams.

Empowering young people beyond education. Continuing to offer employment opportunities so our students gain valuable work experience while living with Yugo.

Through internships, postgraduate programs, and strategic partnerships, students will secure their future before graduation day.

The study companion from day one. Creating spaces and experiences that support the holistic needs of our students and teams.

For each person, the journey with Yugo is different, and we are there throughout that process.
